Problem Statement

Create solutions to deal with two major challenges faced by patients:

- 1- Enabling a patient-centered information exchange system.
 - 2- Personal medical assistant.
- 
- 

Idea

To develop a website and mobile application through which anyone can access to our Healthcare Services.

Simplifying the personalized Healthcare
with Technology.

Objective

Strength

We are using the latest Technology to make better Healthcare decisions.

Opportunity

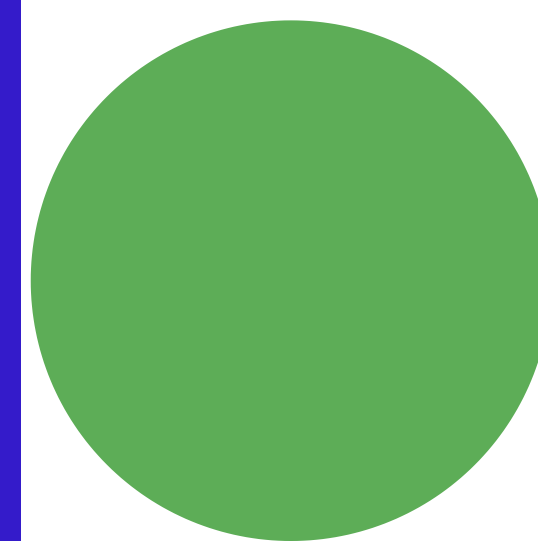

Huges opportunities in Healthcare Industry. Using technology, we can minimize the cost of services.

Weakness

Not much enough practical experience which initially take some time to develop and build a better technology infrastructure.

Threat

since Its a tech based solutions it can be easily copied by our competitor.

Solution

- 1- Easily accessible through our websites and soon in our mobile applications.
- 2- Enabling a patient-centered information exchange system.
- 3- Personal Medical assistant.

The background features several large, overlapping geometric shapes. In the top-left corner, there is an orange triangle. In the bottom-right corner, there is a large yellow triangle. A blue shape, consisting of a triangle and a circular segment, is positioned in the top-right and middle-right areas. A green circular segment is also visible within the blue shape in the top-right.

THANK YOU
